

KEEP YOUR BANK LOCAL AND TAKE IT ANYWHERE.

Mobile Banking from Mountain Pacific Bank puts the bank right in your hands — anywhere you go. From your Apple® or Android™ device, you can view account balances, review account activity, pay bills, transfer funds between accounts, receive messages and alerts, and locate ATMs. We still love to see you in person, but now you can have us at your fingertips wherever you are. It's one more reason to keep your banking local.

How to Get Mobile:

You must be enrolled in Online Banking to use mobile services. If you are not a current Online Banking user, go to www.mountainpacificbank.com to enroll. Once you're enrolled, just follow these easy steps:

- Log in to online banking. Under the Preferences menu, select "Mobile."
- On the "Mobile Enrollment" tab, choose "Yes, enable my User ID and Password for use on my mobile device."
- Select the "Mobile Authorizations" tab and create a four-digit mobile authorization code (MAC). Your MAC will allow you to execute transactions in the mobile banking application.
- Click the "Submit" button. You are now enrolled in mobile banking and ready to use the mobile banking application.
- Download the Application to your mobile device and you're ready to go!

NOTE: The Mountain Pacific Bank Mobile Banking application is free. Consult your mobile provider regarding data and texting fees associated with your phone plan that may apply.
